The preparation of financial statements in accordance with Canadian G.A.A.P. requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amount of revenue and expenses during the reporting period. These estimates are reviewed periodically, and, as adjustments become necessary, they are reported in earnings in the period in which they become known.

(e) Financial Instruments

The following policies and assumptions were used to determine the fair value of each class of financial assets and financial liabilities.

Cash, accounts receivable, grants receivable, bank overdrafts, accounts payable, and accrued liabilities: These financial assets and liabilities held for trading are measured at their carrying amounts since it is comparable to their fair value due to the approaching maturity of these financial instruments.
